VOLVO CERTIFIED USED EQUIPMENT

WHY CHOOSE VOLVO CERTIFIED USED EQUIPMENT?

All Volvo Certified Used Equipment is inspected and classified into two categories of used equipment — Volvo Certified Used and Volvo Certified Engine Ready.

To reach our **Volvo Certified Used** level of used equipment, machines are tested and reconditioned using Genuine Volvo Parts and components.

Volvo Certified Engine Ready machines are de-tiered to work in less regulated markets outside of the United States and Europe.

Volvo Certified Used Equipment checks all the boxes.
